

DESCRIPTION

The LSTH thermostat is a watertight, dust tight and corrosion resistant temperature control in a light-weight die cost enclosure with an internal calibrated reference dial and tamper-proof adjustment for outdoor or indoor locations. The liquid-filled thermal system, with its stainless steel bulb and capillary, provides a very dependable and accurate control system.

WIRING

For heater control, low alarm (close on falling temperature) use COM and NC. For high alarm (close on rising temperature) use COM and NO.
